## Recommendation Letter

*To Whom This May Concern*

My name is Lev Kuravsky and I am pleased to offer my recommendation of Dr. Sergei Popkov for the position of Full-Stack Developer and/or Applied Scientist.

During my relationship with Sergei Popkov over the past 9 years, I have experienced a highly motivated, creative, rigorous and hard-working individual who consistently applies his skills for the good of the company and shows great dedication towards his professional duties. He also has shown the valuable ability to work remotely and remain focused and organized under the excessive conditions during the COVID-19 pandemic.

As a software developer, Sergei Popkov shows impressive programming and debugging skills. He often goes above and beyond what is expected of him to ensure that the whole software complex he is responsible for works properly and meets the company needs and expectations. Dr Popkov is a dedicated team player, who knows how to share his view on the situation and uphold his views, yet also can patiently listen to the critique with calm and positive demeanor to ruminate and learn from such remarks as well, to be sure he never makes the same mistake twice.

As a scientist, Sergei Popkov shows on the regular basis outstanding ability to create and apply models to thoroughly and accurately describe certain situation, condition or event under consideration. He scrutinizes the parameters of the model to improve its performance and precision, until the results satisfy all possible desires of our customers and clients. Dr. Popkov thinks in terms of a product, not just the implementation, and that persistently shows in his work.

As an assistant professor, Dr. Popkov shows consistency and decent skills to represent his work in front of the large audience during various events, such as conferences, hackathons and so on. These abilities have allowed him to achieve many awards and accomplishments. Most bachelors, masters and post-graduate students praise his work both as a scientific supervisor and a higher teacher, for Dr. Popkov is always willing to educate and share his knowledge to the best of his abilities, patiently explaining complex concepts in a simple way, constantly innovating the education process.

In conclusion, I would like to express my strong support for Sergei Popkov, as I believe that he will be a great addition to any company and will exceed expectations in his role as Full-Stack Developer and/or Applied Scientist. Dr. Popkov is a wonderful role-model, a hard, responsible and passionate worker, who I am confident will surpass your expectations. While we are deeply disappointed to see him leave our faculty, we are sure that you will benefit greatly from our loss.

Please do not hesitate to contact me if you should require any additional information.

Sincerely,

**Professor Lev S. Kuravsky**

Doctor of Science in Engineering

Dean of the Computer Science Faculty of the Moscow State University of Psychology and Education  
Laureate of the Russian Government Prize in Education

Honored Worker of Science and Technology of the Russian Federation
